

#### EFFICIENT

Expanding modular arms rapidly retract and eliminate the need for multiple retractors or rings.

#### ADAPTABLE

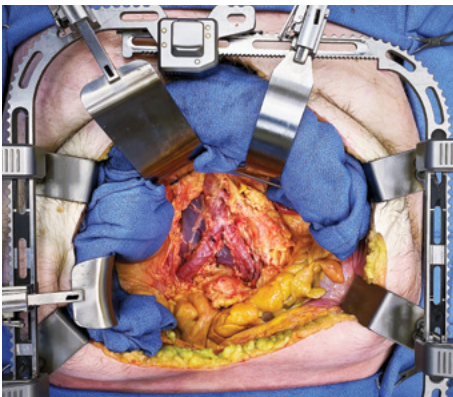

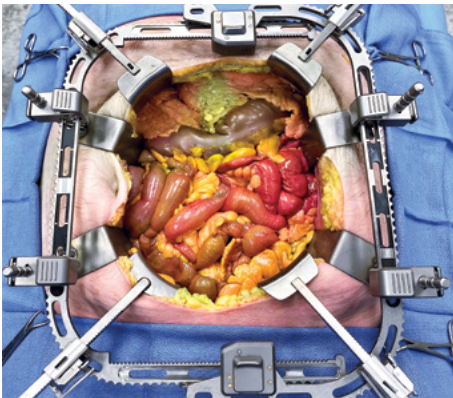

Compatible with Bookwalter® retractor blades and attachments to accommodate surgeon preference.

#### EFFECTIVE

Four-blade configuration provides superior exposure and prevents unintended rotation.

## TITAN Cestero Surgical Retractor™

**Rapid Retraction. Superior Exposure. No Table Attachment.**

- ✓ The TITAN CSR® surgical retractor is a lightweight surgical retractor that combines the speed of traditional self-retaining retractors and the improved exposure of table-mounted systems, **without the need to attach to the surgical table.**
- ✓ **Designed for ease-of-use and quick assembly**, the TITAN CSR® surgical retractor achieves exposure equivalent to a table-mounted system in seconds.
- ✓ **Compatible with Bookwalter®** accessories to provide optimal exposure of deep and retroperitoneal structures.
- ✓ **Self-centering, adjustable frame** provides rapid exposure and adapts to various incision lengths.
- ✓ **Post-Free™**, ergonomic design eliminates post-related obstructions and setup challenges.
- ✓ **Better Exposure** in hybrid operating rooms and bedside surgery (ICU, trauma bay).

The Bookwalter® trademark is a registered trademark of Symmetry Surgical, Inc., and ASR Systems makes no claim to it. ASR Systems is not an authorized seller of Bookwalter® branded products.

# CLINICALLY PROVEN. SURGEON PREFERRED.

“If I had a choice of the Balfour, the Bookwalter®, or the TITAN CSR®, I would always choose the TITAN CSR®.”

**98%**  
RECOMMEND

TITAN CSR® surgical retractor for their operating room\*

## SEE WHAT SURGEONS ARE SAYING

“Works great, has the advantages of both a Balfour and Bookwalter® retractor.”

“Used TITAN CSR® for complex RUQ GSW with liver and kidney injury and TITAN CSR® provided the best right upper quadrant exposure I have ever had.”

“Provided excellent exposure during laparotomy.”

“Ability to attach the Bookwalter® blades provided a quick transition to expose the paracolic gutters and upper quadrants.”

“Efficient and easy to use, little to no setup time, very impressed.”

- ✓ Combines the benefits of multiple retractors into one device.
- ✓ Post-Free™ system eliminates the risk of post-related adverse events.
- ✓ Elimination of O.R. table attachment reduces a potential source of sterile field contamination during setup.
- ✓ Post-Free™ system requires fewer staff to set up, reducing O.R. circulating nurse's responsibilities.
- ✓ Designed by a surgeon for improved O.R. efficiency and optimal patient outcomes.
- ✓ Versatility allows for use in both emergency and elective abdominal surgery.
- ✓ One-way assembly helps reduce inefficiencies and setup errors.
- ✓ Fewer trays and parts to count, clean, and reprocess to improve O.R. turnover and efficiency.
- ✓ Designed to be integrated into standard O.R. trays.
- ✓ Lightweight titanium construction, weighs two pounds.
