

• **EFFICIENT**
Expanding Modular Arms rapidly retract and eliminate the need for multiple retractors or rings.

• **EFFECTIVE**
Four-blade configuration provides superior exposure and prevents unintended rotation.

• **ADAPTABLE**
Backward compatible with all Bookwalter® accessories, multiple retractor blades can be attached to accommodate surgeon preferences.

TITAN Cestero Surgical Retractor™

Rapid Retraction. Superior Exposure.
No Table Attachment.

- ✓ The TITAN CSR™ is a lightweight surgical retractor that combines the speed of traditional self-retaining retractors and the improved exposure of table-mounted systems, **all without the need to attach to the surgical table.**
- ✓ Designed for ease-of-use and quick assembly, the TITAN CSR™ achieves exposure equivalent to a table-mounted system 50x faster.
- ✓ Self-centering, adjustable frame provides rapid exposure and adapts to various incisional lengths.
- ✓ Post-Free™, ergonomic design eliminates post-related obstructions and setup challenges.
- ✓ Compatible with all Bookwalter® accessories to provide optimal exposure of deep and retroperitoneal structures.
- ✓ 35% more attachment points for Bookwalter® blades.

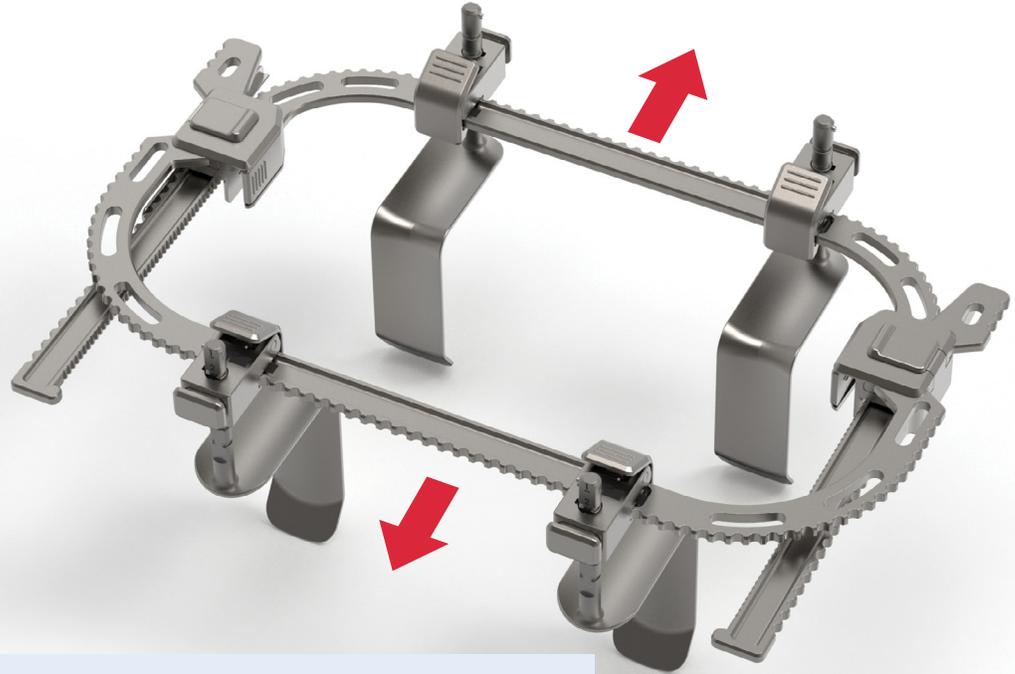

*The Bookwalter® trademark is a registered trademark of Symmetry Surgical, Inc., and ASR Systems makes no claim to it. ASR Systems is not an authorized seller of Bookwalter® branded products.

Post-Free™ | Rapid Retraction Superior Exposure | O.R. Efficiency

“So many products only minimally improve what I’m doing. The TITAN CSR™ changes what I’m doing.”

MB, MD, Trauma Surgeon, Level I Trauma Center

- ✓ Combines the benefits of multiple retractors into one device.
- ✓ Post-Free™ system eliminates the risk of post-related adverse events.
- ✓ Elimination of O.R. table attachment reduces a potential source of sterile field contamination during setup.
- ✓ Post-Free™ system requires fewer staff to setup, reducing O.R. circulating nurse’s responsibilities.
- ✓ Designed by a surgeon for improved O.R. efficiency and optimal patient outcomes.
- ✓ Versatility allows for use in both emergency and elective abdominal surgery.
- ✓ One-way assembly helps reduce inefficiencies and setup errors.
- ✓ Fewer trays and parts to count, clean, and reprocess may improve O.R. turnover and efficiency.
- ✓ Designed to be integrated into standard O.R. trays.
- ✓ Lightweight titanium construction, weighs two pounds.
